

Teen Tech Center Resources

Looking to start producing before you make it to the Teen Tech Center? Here are some of our favorite, and free, digital resources that you can use at home.

Digital Design

Inkscape <https://inkscape.org/>

Take advantage of Inkscape's flexible graphics tools! This is your one-stop-shop for free vector graphic creation and editing.

Canva <https://www.canva.com/>

Looking to produce a product quickly? Canva is an easy-to-use online tool with templates and layouts for everything from posters, to resumes, to birthday cards

Scribus <https://www.scribus.net/>

Need to produce a flyer, booklet, or zine? Scribus is an excellent, professional resource for all your layout and publishing endeavours.

Music Creation

Minimoog Model D App

<https://www.moogmusic.com/products/minimoog-model-d-synthesizer-app>

The ultimate electronic keyboard! Start creating new sounds with this digital version of a classic analog synthesizer.

BandLab App <https://www.bandlab.com/>

Excited to create music with others? The BandLab app allows you to create music as well as collaborate with friends.

orDrumbox <https://www.ordrumbox.com/download.php>

Grab this free drum machine software to experiment with new beats, drawing from your own ideas as well as databases of rhythms and sounds.

Filmmaking

DSLRguide <https://www.youtube.com/user/DSLRguide/videos>

Ready to be a filmmaker? The DSLRguide YouTube channel provides how-to videos to get you started.

Lessons from the Screenplay

https://www.youtube.com/channel/UCErSSa3CaP_GJxmFpdjG9Jw

Storytelling is an important skill for any filmmaker. Lessons from the Screenplay is a fun way to dive into the storytelling techniques used in your favorite films.

Photography

Mango Street

https://www.youtube.com/channel/UC5bp5_6h-ZxkBz6S_33ZUVg/videos

Check out Mango Street's YouTube channel for quick tips and tricks to transform your photography.

Pixlr <https://pixlr.com/>

Jump into photo editing with Pixlr, an easy-to-use online photo editor with quick and powerful tools.

GIMP <https://www.gimp.org/>

Use GIMP for all your professional image manipulation needs. Edit photos, build artworks, and produce graphic design elements with this open-source application.

Art

Art Assignment

<https://www.youtube.com/user/theartassignment/featured>
