

OMSI BODY WORLDS EVENING EVENT PACKAGE

AVAILABLE MARCH 7, 2020 – SEPTEMBER 13, 2020

Theory Restaurant

OMSI's Theory restaurant offers an open, airy floor plan with sleek custom furnishings, reclaimed wood accents, a cozy fireplace, and waterfront views of the Portland skyline.

Featured Exhibit: *BODY WORLDS & The Cycle of Life*

At *BODY WORLDS & The Cycle of Life*, visitors get the inside story on how their body lives and changes through time—as it grows and matures from infancy to old age.

By viewing the body in different stages of health and at different points in the lifecycle, visitors will gain a new appreciation of the power we have to keep our bodies healthy throughout our life spans.

More than 100 preserved human specimens reveal the wonders of human development while also demonstrating how poor health, good health, and lifestyle choices can shape the body.
