Looking back on the past year, I am amazed and very proud at what OMSI and our partners have accomplished with your support. When faced with uncertainty and numerous challenges, together we created innovative and equitable ways to continue to deliver high impact programming across the region.

In 2020, we ran a full summer of safe programming for K-8 youth covering everything from animal care to robotics, animation to ocean ecology. Educators created digital programming for families, schools, and community groups, and our events team developed virtual adult OMSI After Dark and Science Pub programming that in total reached nearly 40,000 viewers across the state.

When *Dinosaurs Revealed* opened in March 2021, audiences showed us how eagerly they had been awaiting OMSI’s public museum re-opening. We have been overjoyed to host families again.

One of our proudest accomplishments was the creation and launch of OMSI Homeroom, a 16-week in-person program offered to 691 students and families who needed support to succeed in distance learning. Your support allowed us to offer this program at little-to-no cost for many students; nearly $500,000 in aid was distributed.

This past year has taught us new ways to partner, innovate, and evolve so that we can achieve our mission and live our values. We completed the first year of our 2020-2025 strategic plan, and we continue to focus on racial equity to ensure the science education we deliver is available, welcoming, and relevant to all families. With our partners, we are committed to transforming science education and helping ensure that communities of color feel a sense of belonging in OMSI programming and spaces. Our sights are set, and we are looking toward a year of growth and strategic investment in climate education and resiliency and new platforms to address opportunity gaps.

We could not do this work without you! On behalf of OMSI and the communities we serve, thank you!

With gratitude,

Erin Graham
President and CEO

64%
of youth participating in OMSI programs received Financial Aid support

In a typical year of operations, OMSI offers in-museum services 350 days per year

315 Days Open

53K Hours
of OMSI Homeroom programming for students during the 2020-2021 school year

11K
viewers attended virtual Science Pubs and virtual OMSI After Dark events

31K
participants in virtual Outdoor School and virtual classroom programs
OMSI Accelerated

Amidst the uncertainty of last year, OMSI has continued moving forward towards our 20-year vision of igniting an education transformation at the intersection of science, technology, and design.

OMSI Accelerated is our 2020-2025 campaign that prioritizes key investments and outcomes to make progress toward our destination. We are committed to being a change agent to improve STEAM education for children and families throughout the Northwest.

Digital Learning

We are overhauling our website and creating digital curricula to support teachers and learners digitally as well as in classrooms. Building on OMSI’s strengths in interactive STEAM learning experiences and in partnership with schools, as well as culturally specific and rural community organizations, we will bridge the opportunity gap through new digital experiences.

Impact: Expanding access and opportunity will support a more resilient and equitable education system to change long-term outcomes.

Early Childhood Education

After major recent investments in Early Childhood Experiences, OMSI continues working to increase access to science education for young children across the region. Early Childhood Education at OMSI deepens the relationships between children and their caregiver by sharing experiences that spark curiosity and support risk taking and discovery.

Impact: Delivering professional development programming virtually will help strengthen our commitment to rural communities to help ensure teachers and caregivers are more confident teaching science to the youngest scientists.

Natural Sciences Initiative

In over 80 listening sessions conducted in rural and urban communities, climate change consistently came up as one of the most important issues. OMSI is making this the focal point of our new Natural Sciences Hall and programs amplifying the stories of Black, Indigenous, People of Color (BIPOC) and rural youth.

Impact: Telling stories of statewide resiliency will communicate the urgency of climate change and catalyze personal and community action.
Thank you.

In a year like this, it takes all of us. Every donation, volunteer hour, membership, visit, and encouraging comment has made a difference and carried us through.

Donations have supported science education across the state, volunteers have kept our summer classes going, and our members have helped keep the museum full of dinosaurs. We take none of it for granted, and we are deeply grateful for you, our community.
Our Board of Trustees, Emeritus Board, and museum leaders are laying the groundwork for OMSI’s future as they provide vital expertise and fundraising support for this organization.
