

# ALEGRE MENTE

CELEBRANDO CONEXIONES TEMPRANAS

# HAPPY BRAIN

CELEBRATING EARLY CONNECTIONS

## Alegremente | Happy Brain

In this bilingual Spanish/English exhibit kids play while adults learn about how simple, everyday interactions build skills in children that support healthy brain development for a lifetime of happiness.

## HIGHLIGHTS

AlegreMENTE | Happy Brain invites visitors to celebrate early childhood connections in a whimsical storybook forest alive with human and animal families of all kinds!

In this bilingual Spanish/English exhibit kids play while adults learn about how simple, everyday interactions build skills in children that support healthy brain development for a lifetime of happiness.

The exhibit encourages adults to support children's brain health by:

- dancing with forest animals
- forming brain connections on an interactive mini tilt table
- and getting cozy in a semi-enclosed reflection pod.

Caregivers explore alongside their children, discovering they're already equipped with everything they need to support early brain development and build healthy connections with 0–5 year-olds.

 \$40,000 for 3-month venue + inbound logistics

 1,500 ft<sup>2</sup> gallery space  
3–5 days estimated for installation and take-down  
Minimum floor space to store carts: 400 ft<sup>2</sup>  
Minimum ceiling height: 10 ft.

 Shipped in one (1) 53-ft. trailer
