

SciComm Fellowship

Are you a STEAM professional who is passionate about sharing your work in meaningful ways? Apply to become a **SciComm Fellow** with **OMSI**, the Oregon Museum of Science and Industry!

Benefits for Fellows:

- Professional and personal development; build skills and confidence as a science communicator
- Ongoing opportunities to engage with museum visitors and communities around the state
- Regular networking opportunities with other STEAM professionals committed to SciComm
- OMSI membership

Commitments for Fellows:

- Participate in series of four professional development workshops; these interactive workshops are focused on identifying and practicing strategies for effectively engaging with public audiences.
- Collaborate with OMSI staff to develop a unique, hands-on activity inspired by your work in STEAM
- Share your hands-on activity at a minimum of three public programs a year at OMSI and/or in your community.
- Tuition for the workshop series is \$2,000. Scholarships are available. Many fellows support their participation through grants, professional development funds, or similar; we are happy to support your efforts to identify and secure funding.
