

Event Add-Ons

Physics Lab

Available with Turbine Hall rental

Discover the hair-raising effects of static electricity with the Van de Graff Generator and view some of the first phonographs ever made at the Physics Lab! The entire lab is filled with fun activities for all ages, including a bellows organ, plasma tube, harmonograph, a collection of early Edison lightbulbs and more!

Physics Lab with Educator | \$450

Chemistry Lab

Available with Turbine Hall rental

Discover the stuff that makes up the universe! Measure, mix, and experiment with concoctions that glow, fizz, change color, and more – with goggles of course! Guests will be guided by OMSI educators through hands-on experiments.

Chemistry Lab with Educator | \$450

Life Lab

Available with Natural Science Hall rental

Take a closer look and discover the ecosystems, adaptations, and more that fill our natural world full of surprises. Guests can interact with animals and insects under the supervision of an OMSI educator.

Life Lab with Educator | \$450

Paleontology Lab

Available with Natural Science Hall rental

Step into a working fossil preparation lab! Guests can handle fossil shells and bones and with an OMSI educator to interact with guests and conduct demos.

Life Lab with Educator | \$450

Event Add-Ons

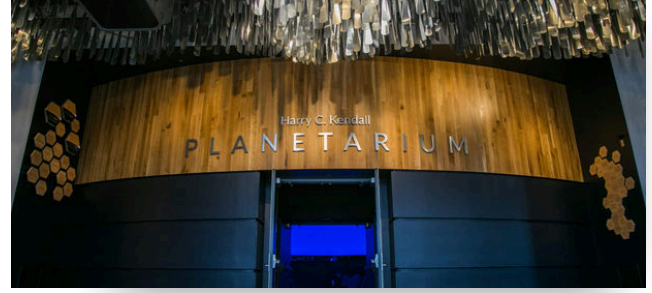

Planetarium Shows

The planetarium offers a wide range of shows that you may choose for your guests, from star shows to laser light shows. Each show is approximately 25-45 minutes in length and includes a space science educator who will interact with guests and run each show.

Planetarium Show | \$750 per show

Capacity | Half Dome 120; Full Dome 185

USS Blueback Tours

Tour the Navy's last active duty diesel-electric submarine! Guests will have open boat access, meaning they can enter and explore at their own pace. Submarine staff will be stationed throughout to answer questions, or give tours to interested guests.

Submarine Tours | \$750 per hour

Capacity | 125 people per hour

Rotating Natural Science Hall Exhibit

***Knowing Nature: Stories of the Boreal Forest /
Historias del bosque boreal***

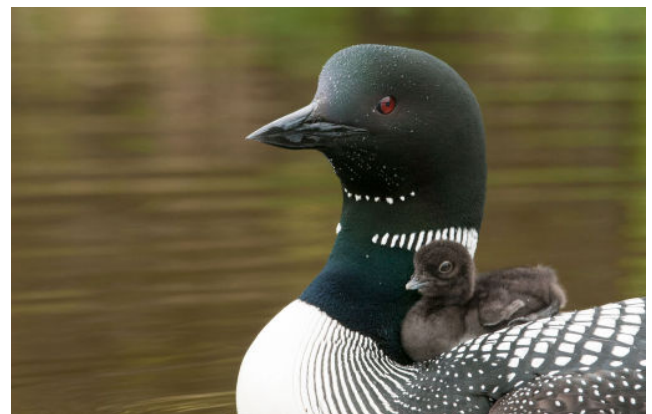

Available January 25th, 2025 – July 6th, 2025

Presented in English and Spanish, this exhibition integrates the themes of climate change, Indigenous perspectives, and the relationship between people and nature through stories of resilience, strength, and hope in a changing world. It will take guests on a journey to discover the beauty of the boreal forest using a combination of sensory experiences, researched-based science, curiosity-building activities, and first-person narratives.

Knowing Nature was created in collaboration with a diverse group of advisors, including scientists, naturalists, members of Indigenous communities, conservationists, and artists. The exhibition includes commissioned objects, videos, photography, and interactive displays that will allow audiences to learn through hands-on experiences.

Knowing Nature | \$3,000

Capacity | 130 people
