

The background is a complex, layered collage of architectural and abstract elements. It features various shades of blue, orange, and grey, with numerous thin, intersecting lines that create a sense of depth and movement. Some elements resemble architectural drawings or blueprints, while others are more painterly and textured. The overall effect is a dynamic and modern visual field.

ABOUT OMSI 2026 GALA

Every Spring, the OMSI Gala celebrates science, community, and innovation. A night where leaders, businesses, and innovators come together to honor a shared commitment to shaping the future. The OMSI Gala is more than just a gathering; it's our flagship fundraising event that drives the mission of the Oregon Museum of Science and Industry forward.

During this elegant soirée, attendees enjoy a sparkling cocktail hour, performances from local artists, dinner paired with regional wines, and receive an insider's view into the programs and impact that elevate OMSI as a leader for science education in Oregon and beyond.

To create a future with science education for all, we rely on the support of community partners and leaders like you. As a privately funded non-profit organization that does not receive regular support from the city or state for our operations, we rely on investments from individuals and organizations to ensure that we are able to fulfill our mission.

By sponsoring our gala, you demonstrate a shared commitment to OMSI's values and a belief in our ability to positively impact countless lives. Your support will help spark curiosity in the minds of over a million individuals served by OMSI each year, including those who are traditionally underrepresented in STEAM fields.

Join us in this exclusive opportunity to lead, inspire, and make a difference through high-visibility sponsorship opportunities. Together, we'll create a legacy that endures long after the night ends..

OMSI'S COMMUNITY IMPACT

OMSI is a well-regarded and much loved institution within the Oregon community. In our museum halls, generations of children and their caregivers have created lasting memories, and have explored science in novel ways that incubate and amplify the curiosity we all possess. Fostering this sense of wonder is core to our mission, and we continually seek to inspire, engage and innovate to provide STEAM (Science, Technology, Engineering, Art, and Math) experiences for all.

Our iconic museum in Portland, Oregon, serves as basecamp for our far-reaching work, and the wake of this work can be seen rippling across the Pacific Northwest. With your support, in Fiscal Year 2025 we served more than one million individuals at the museum, and an additional 113,000 beyond the museum walls.

We are especially proud to highlight our programs that support equitable access to our STEAM learning experiences. We work diligently with local and statewide partners to engage students, caregivers, teachers, and individuals from historically underserved communities in outdoor camps, summer classes, statewide outreach, professional development, and other innovative and dynamic science programming. In total, we allocated more than \$1.6 million in financial assistance to nearly 175,000 learners in Fiscal Year 2025.
